

# Make it **your** own...

## Online Booking

The ability to arrange for a hire vehicle, 24 hours a day, 7 days a week, 365 days a year - all at the click of a few buttons sounds very appealing. Well how about if all of SMR Evolution's Rental Desk expertise and market leading system were designed for you? Your company logo, your corporate colours, your telephone number and full control over who can and can't make bookings should you choose.

Our online rental system gives you full control over every aspect of vehicle rental, from what type of vehicle, to how long you need it, to having satellite navigation fitted. Not only will you have an online booking system tailored for your company that can be incorporated within your own website or intranet, you can create logins for each and every one of your colleagues, area branches or remote workers and let them create their own bookings. You have control over the rule setup so the relevant manager has to authorise bookings first.....control with security is therefore assured.

---

### Tailored branding

Our expertise and market leading online booking platform branded as your companies own product.

### 365 day coverage

Never worry about downtime with constant cover. Office closed? Phone lines engaged? Emails down? Just sign on to your rental portal, create a booking and wait for it to be delivered - which can be as fast as 2 hours.

### Various user access levels

Provide all your staff with individual logins and you can set specific restrictions to ensure the correct vehicle is booked and avoid employee upgrades at the companies expense. You can for example restrict what vehicle they can book and how long they hire it for ensuring effective rental cost management is in place. User access is also available to provide higher permissions to managers so they can overview their staff's bookings, authorising any exceptional requirements.

### Access to thousands of cars and vans

An unrivalled choice for vehicles means you'll always get what you need. The widest selection of fleet vehicles ranging from a compact 1.0 litre petrol, to an executive 2.0 diesel saloon and multipurpose MPV's and 4x4 vehicles. Our light commercial vehicle range is unrivalled from small car derived vans, to 3.5t LWB high roof vehicles and specialist luton or tail lift requirements can also be booked under your hire system.

If required your rental system has access to a full range of prestige vehicles such as BMW, Mercedes and Porsche, so whatever your vehicle requirements or term of hire, your rental system delivers it **the way it should be**, that's providing you with what you want when you want it.

### Full report management

Having up-to-date information instantly is a given, through your hire system you can access reports for P11D values, booking history, future reservations and your spend to date. More detailed reports can be requested and will be provided the next working day ensuring first class management reporting information is available.
